ABOUT WORKSHOP

The 8th edition of the workshop *New materials for electrochemical recognition of inorganic and biological species* will be organized by the Romanian Society of Chemistry and the National University of Science and Technology Politehnica Bucharest in collaboration with Ovidius University of Constanta, ROMANIA. The program of this workshop will include plenary conferences, oral communications and a poster session. 2024 NOMARES Edition will take place within the International Conference *CHIMIA 2024 “NEW TRENDS IN APPLIED CHEMISTRY”*, on May 30th- June 1st, 2024. The official language of the workshop is **French**, but the contributions in **English** are also accepted. The workshop is organized as one of the sections of CHIMIA 2024.

WELCOME

Constanta is one of the oldest cities in Romania. The first documentary evidence dates back to **657 BC** when a Greek colony called **Tomis** was formed on the site of today's peninsula (and even under today's waters, right next to the Casino). The locality was conquered by the Romans in 71 BC and renamed **Constantiana** after the sister of Emperor Constantine the Great. It became a city after the construction of the Cernavodă-Constanța railway line and port in 1865 for export Romanian grains. The port of Constanta is the largest port in the Black Sea basin and is ranked 4th in Europe.

INSTRUCTIONS FOR ABSTRACT PREPARATION

The abstract (1 page) will be written in French and English. The template of the abstract is attached.

PUBLICATION

The participants are invited to publish their original work in French or English in the Scientific Bulletin-University Politehnica of Bucharest with the mention for *Nomares workshop*, after revision (www.scientificbulletin.upb.ro).

There are also facilities for publishing in English in more specialized journals, following two-round revisions:

[Ovidius University Annals of Chemistry, ISSN: 2286-038X](#)
[Symmetry \(MDPI Journal\), \[susy.mdpi.com\]\(http://susy.mdpi.com\)](#)

PRESENTATION

The conference will bring together Romanian and foreign universities and renown specialists of international and national scientific research, as well as scientific and professional organizations.

The conference is an opportunity to present new results, discussions and exchanges of experiences in to address global issues in the topics regarding applied chemistry in the oral and poster sessions.

SMEs are invited to become sponsors of this international conference and to present their company's products, demonstrating their expertise and the excellence of their products.

We hope that our Conference will be a prestigious international event, which all participants will remember with emotion. However, we are aware that only your participation and involvement can guarantee this.

So we are looking forward to meet you and have an excellent scientific experience!

IMPORTANT DATES

- **February 15th 2024** – Deadline for abstract submission
- **February 19th 2024** – Notification of accepted works
- **February 28th 2024** – Deadline for late registration fees (for contributions included in the book of abstracts)
- **April 1st 2024** – Deadline for the Young Scientist Paper Award
- **30th May, 2024** – Opening of the conference
- **1st June 2024** – Closing of the conference

PAYMENT

By cheque or bank transfer (specify on the back of the cheque the names of the participants)
